

Who we Are:

California Human Development (CHD) has been providing comprehensive residential treatment for women who suffer from chemical dependency for over three decades. We understand that it takes true courage, guidance and a tremendous amount of on-going support to learn how to live without the use of drugs & alcohol. Our approach is based on respect and compassion and encompasses the mind, body and spirit of the individual. Our model offers an opportunity for women seeking recovery to gain the skills and become empowered to rebuild their lives and relationships. We have previously provided these services using three separate homes; the expansion into one larger facility will allow us to greatly enhance our program and serve additional women - right here in beautiful Sonoma County.
